

EEE-AM 2023 Special Session 01

TITLE

Blockchain application within Net-Zero Energy Systems

SESSION CHAIRS

Pio Alessandro Lombardi (pio.lombardi@iff.fraunhofer.de, Fraunhofer Institut für Fabrikbetrieb und automatisierung IFF, Germany)

DESCRIPTION

The special session aims to disseminate the research activities on the application of blockchain within net-zero energy systems. The session will point out how the design of Net-Zero Energy Systems can facilitate the integration into the energetic systems (electric, thermal, mobile etc) of the volatile RES and how Blockchain can support the identification of new business models. Smart grid.
